KYOTO PINE How to grow OMURO GOYO

~Care of KITAYAMA SUGI (Japanese cedar) Special Wooden Squares Box~

【Watering】

- ※ When the soil beneath the moss of the surface is dry white (Picture ①), taken out the pine tree with plastic container from wooden squares box, please give plenty of water flowing enough (Picture ②)
- ※ Please do not water too much otherwise Bonsai will wither caused by root decay.

Picture ①

Picture ②

- ※ In order to prevent drying of the leaves, please mist for leaves by mister (preferable) or watering directly.
- ※ Please get back pine tree in wooden squares box after drained off water. (Please note that don't get water on wooden squares box (Masu) directly)

【Placement】

- ※ It's preferable that pine tree is managed outside the room but if you enjoy in a room, please put the pine tree at semi-natural place such as near the window with wind and sunshine.

If you have any questions, please feel free to contact us.

KYOTO SAKURA

(Cherry Blossom)

How to grow KYOTO Sakura

~Care of KITAYAMA SUGI (Japanese cedar) Special Wooden Squares Box~

【Watering】

- ※ When the soil beneath the moss of the surface is dry white (Picture ①), taken out the pine tree with plastic container from wooden squares box, please give plenty of water flowing enough (Picture ②)

Picture ①

Picture ②

- ※ Please do not water too much otherwise Bonsai will wither caused by root decay.
- ※ Please be careful not watering to flowers directly otherwise flowers fall down.
- ※ Please get back SAKURA tree in wooden squares box after drained off water. (Please note that don't get water on wooden squares box directly)

【Placement】

- ※ Keep the Bonsai in an indoor place where it is not exposed to rain and wind so that the Sakura will last longer for you to enjoy.

If you have any questions, please feel free to contact us.
